

CODING FOR KIDS

[Duration: 10 Hours]

Uses Scratch, Python or Java
Greenfoot

sequence: identifying a series of steps
`class="my_Class"` for a task

span: running the same sequence multiple times

parallelism: making things happen at the same time

events: one thing causing another thing to happen

conditional statements: making decisions based on conditions

operators: support for mathematical and logical expressions

All about data: storing, retrieving, and updating values

ABOUT

Scratch is a high-level block-based visual programming language and website targeted primarily at children 8-16 as an educational tool for coding. Users on the site, called Scratchers, can create projects on the web using a block-like interface.

ROBOTICS FOR KIDS

[Duration: 10 Hours]

Uses Scratch or Python for
Robomaster S1

sequence: identifying a series of steps
`class="my_Class"` for a task

span: running the same sequence multiple times

parallelism: making things happen at the same time

events: one thing causing another thing to happen

conditional statements: making decisions based on conditions

operators: support for mathematical and logical expressions

All about data: storing, retrieving, and updating values

ABOUT

The RoboMaster S1 is a game-changing educational robot built to unlock the potential in every learner. Inspired by DJI's annual RoboMaster robotics competition, the S1 provides users with an in-depth understanding of science, math, physics, programming, and more through captivating gameplay modes and intelligent features.

+2782 696 7749
info@schoolofit.co.za

Prerequisite: Intro C++ course

ABOUT

Unreal Engine is a C++ video game engine based on the Unreal Tournament game series. Game developers use game engines like Unreal to take some of the “grunt work” out of developing a video game. For example, a game engine might have already established tools that allow you to do things like control the lighting and physics in a game, create models, and more. This saves the game developer a lot of time, allowing them to focus more on things like the graphics
